

THE OZZI® PATENTED REUSABLE FOOD CONTAINER COLLECTION SYSTEM FOR REPLACING DISPOSABLES

Approximately five million containers to date have been averted from landfills and oceans, which is only the beginning of the impact OZZI® will have on reducing waste. The OZZI® System and O2GO® Reusable Food Containers are a cost-effective alternative to single use, to-go containers, for all operational sectors across the country and abroad.

HOW IT WORKS

Student/Participant:

- Drop reusable food container in top slot
- Repeat as needed

Staff/Maintenance:

- Unlock bottom door, remove reusable food containers
- Replace liner bag
